Commissioner for Patents

This notice of non-compliant amendment for amendment rec'd Jan 02, 2009 appears to be a bona-fide attempt to respond to prior office action but it contains a serious omission, as per MPEP 714.03, for failing to properly provide citations where newly claimed features is taught within originally filed specification. The cited reply on page 24 alleges that Applicant/Counsel believes no new matter was entered by the amendment without addressing where specific support is found in originally filed specification which is deemed to be a serious omission. In addition, although, the cited reply alleges that prior art fails to teach particular steps/functions regarding multiple consecutive wagers in generalized manner of newly claimed invention; the reply fails to specifically address how Orenstein 2001/0028147 specifically fails where Orenstein '147 states trackng multiple consecutive wagers (abstract, para .31-32). A proper reply must address both above identified omissions to avoid abandonment.

Since the submission appears to be a bona fide attempt to provide a complete reply to the prior Office action, Applicant is given a shortened statutory period of ONE MONTH or THIRTY DAYS from the mailing date of this letter, whichever is longer, to submit a complete reply. This shortened statutory period supersedes the time period set in the prior Office action. This time period may be extended pursuant to 37 CFR 1.136(a).
